SENTENCED TO DEATH.

Nineteen Persons Connected With Plot Against Cabrera to Die.

Guatemala City, May 25.—The court-martial that has been in session here for three days trying persons charged with complicity in the attempt made on the life of President Cabrera in this city on April 29, handed down sentences of death in the cases of nineteen of the prisoners. These findings have created intense excitement and popular feeling is so high that the carrying out of the sentences is doubtful. Two Italians are among those sentenced to death.

Wonderful Eczema Cure

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors but no benefit resulted. By chance we read at our Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and body building health tonic. Guaranteed at H. P. Dunn & Co.'s drug store, 50c.

BRIBERY IS CHARGED

Indictments Returned Against San Francisco Men.

TROLLEY FRANCHISE DEAL

Mayor Schmitz, Abraham Ruef and Railroad Officials Are Accused of Bribe Fourteen Supervisors—More True Bills May Follow.

San Francisco, May 25.—The grand jury has returned bribery indictments as follows:

Against President Calhoun of the United Railroads, 14; against Assistant to President Thornwall Mullally, 14; against Attorneys Tiley L. Ford and W. M. Abbott of the legal department of the United Railroads, 14 each; against Mayor Eugene E. Schmitz, 18; against Abraham Ruef, 14; against President Louis Glass of the Pacific States Telephone and Telegraph company, 2; against Theodore V. Halsey, formerly an agent of that corporation, 1.

Ruef, Schmitz, Calhoun, Mullally, Ford and Abbott are charged with bribing fourteen supervisors to grant an overhead trolley franchise to the United Railroads. Schmitz is further charged with bribery in connection with the fixing of the gas company's rate and with receiving \$5,000 in the United Railroad franchise deal.

The indictments against Glass are additional to the eleven indictments already returned against him on the charge of bribing supervisors to refuse a competitive telephone franchise. The indictment against Halsey is for the same offense.

Heavy Bail Fixed by Court.

Superior Judge Coffey fixed bail in the sum of \$10,000 on each of the charges and gave the accused one day to furnish bonds.

The statement was made officially that all but \$140,000 of the entire amount of bonds, \$890,000, will be forthcoming at the appointed hour. The United Railroads alone will have to put up for its president, assistant to the president and two attorneys, \$560,000 in securities, or \$2,280,000 in cash. Schmitz, in addition to \$50,000 security he has already given to secure his liberty pending the trial of the five counts of extortion brought against him and Ruef jointly, will have to put up \$160,000 in bonds.

Ruef will have to put up \$140,000, but inasmuch as he now is and for more than two months has been a prisoner without any immediate hope of release, it is understood that he will make no effort to give bail. It is said, indeed, that under the circumstances, and in view of the fact that he turned state's evidence, he prefers to remain the prisoner of Elisor Biggy.

When Foreman Oliver of the grand jury filed the nineteen indictments in court he stated that these were "only a partial report from the grand jury." This is taken to mean that more indictments are to follow.

My Best Friend

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous. No other remedy has ever equaled it. Fully guaranteed by H. P. Dunn & Co., druggist. 50c and \$1.00. Trial bottle free.

Atell Defeats Solomon.

Los Angeles, Cal., May 25.—Abé Atell, featherweight champion of the world, won in twenty rounds from Kid Solomon with the greatest ease.

IN HER STRUGGLE FOR LIFE

Mrs. William McKinley Is Now Holding Her Own.

Canton, O., May 25.—In her fight for life Mrs. McKinley has held her own. As far as the attending physician, Dr. E. O. Portman, and his adviser, Surgeon General Rixey of the navy, could determine at 6 o'clock Friday night, when a bulletin was issued, there had been no material change in her condition during the day.

This means, as Dr. Portman expresses it, that "she may live for a day, for several days, or even for a month." The physicians agree that no one can tell when a turn for the better or worse may set in. She continues in a comatose state.

Her strength after an attack of grippe and bronchitis is much enfeebled, and it is feared that any recurrence of apoplectic symptoms in a severe form would at once prove fatal. If the patient rallies sufficiently to take nourishment the chances seem to be for an indefinite prolongation of life.

The interest in Mrs. McKinley's condition is shown by the many telegrams that are received here. President Roosevelt, Vice President Fairbanks, Justice Day and others counted as personal friends of the McKinleys are kept closely informed of her condition.

At 9:30 o'clock Friday night the following physician's bulletin was issued at the McKinley home:

"Mrs. McKinley's condition is somewhat improved but is still serious."

It is stated that Mrs. McKinley was conscious for a short time Friday evening and was able to take some nourishment. Her condition is regarded as so satisfactory that the attention of physicians is not needed. A conference between Doctors Rixey, Eymann and Portman will be held to determine on the further immediate treatment.

BROWNSVILLE AFFRAY.

Five Witnesses Testify Before Senate Committee.

Washington, May 25.—Five witnesses testified in the Brownsville investigation before the senate committee on military affairs. Teofilo Martinez, a Mexican who lived in a house next to the barracks, told of four bullets having been fired into his house from a point thought to be somewhere in Company C barracks. Albert W. Billingsly, a dairyman, testified that the only thing he had ever heard against negro soldiers being garrisoned at Fort Brown was from white soldiers of the Twenty-sixth Infantry, who did not want to leave. He admitted that after citizens had had trouble with negroes he had made threats against them and was reprimanded by Mayor Combe.

Joseph L. Criswell, a saloonkeeper, testified that Captain Macklin had protested against the treatment of the negroes by citizens and had said that if the ill treatment did not stop the negroes might climb the walls some night and shoot up the town.

Mayor Combe concluded his testimony. Amos Littlefield, formerly deputy sheriff of Cameron county, Tex., also testified.

M'LAUGHLIN RETIRES.

Noted New York Police Official Goes on Retired List.

New York, May 25.—Captain William W. McLaughlin, one of the best known officers that the New York police department has ever had and whose thirty-nine years of service to the city have been crowded with stirring events, has retired from the force. The former inspector Friday made application for retirement on half pay, which will be \$2,500 a year, and as he has served his twenty-five years and no charges against him are pending, Commissioner Bingham had no alternative but to grant the application.

This retirement, too, will remove McLaughlin as a figure in the investigation of the alleged Gould conspiracy. The captain had been ill with bronchitis and it was understood that he was soon to have been officially examined by a headquarters physician to determine when he would be able to appear before Deputy Commissioner Hanson and explain his alleged connection with the affair of which Lieutenant "Frank" Peabody told Mr. Hanson Thursday night. However, as the application for retirement forestalled any possible charges, McLaughlin may be said to be out of the case.

While McLaughlin was preparing his application for retirement, Deputy Commissioner Hanson was continuing his inquiry at police headquarters and it was learned that both Howard Gould and his wife had been served with subpoenas to appear before him and tell what they knew about the participation of Peabody and McLaughlin in Gould's search for divorce evidence.

GREAT LEGAL BATTLE

Between Federal Government and Standard Oil.

ARGUED IN ST. PAUL COURT

Bill of Exceptions to the Government's Complaint Argued Before the Four Judges of the Eighth Judicial Circuit.

St. Paul, May 25.—An important legal battle in the government's war against the Standard Oil monopoly was fought in the United States circuit court sitting in St. Paul. The bill of exceptions to the government's complaint was argued before the four judges of the Eighth judicial circuit, the arguments lasting a little less than four hours. The judges, Sanborn, Hook, Van Deventer and Adams, took the matter under advisement and there was no intimation as to when their decision will be handed down.

While the hearing did not necessarily go to the merits of the government's case, it was important as bearing on the future conduct of the case. If the Standard Oil attorneys are sustained in their contentions, issue will be joined on allegations in the complaint which have to do only with acts of the Standard Oil Company of New Jersey, which was organized in 1899 as a holding company to succeed the Standard Oil trust agreement, which was declared illegal and under which the alleged illegal business of the Standard Oil group was carried on from 1882 to 1899. Neither will issue be joined on alleged illegal acts prior to 1882 of the thirty-nine oil companies which in 1882 entered into the trust agreement.

The Next Step in the Case.

On the other hand, if the court sustains the government's contention that issues in the case shall not be limited to acts of the Standard Oil Company of New Jersey, organized in 1899, but that it is pertinent to show the entire history of the illegal business methods by which the Standard Oil Company of New Jersey secured a monopoly of commerce in violation of the common law prior to the enactment of the Sherman anti-trust law and in violation of that law since its enactment, the next step will be the taking of testimony on all allegations set forth in the complaint. Counsel for the government set up that the conspiracy in restraint of trade did not begin with the organization of the Standard Oil Company of New Jersey in 1899, but that the conspiracy had its inception back in 1870; that the conspiracy has been a continuing offense, and that every overt act, including the organization of the Standard Oil Company of New Jersey, in furtherance of the conspiracy, is a renewal of the conspiracy as to all of the parties.

The government was represented at the hearing by Frank B. Kellogg of St. Paul, who made the only argument on behalf of the government; C. B. Morrison of Chicago and Milton D. Purdy, assistant attorney general. The attorneys representing the Standard Oil company were John G. Johnson of Philadelphia and John G. Milburn of New York.

ARGUMENTS COMPLETED.

On Motion of Trustees in the Mary Baker G. Eddy Case.

Concord, N. H., May 25.—Arguments have been completed in the Merrimack county superior court on the motion of the trustees of the estate of Mary Baker G. Eddy, head of the Christian Science church, to intervene and be substituted as plaintiffs in the suit brought by her son, George W. Glover, and others to compel an accounting of her property. Judge Chamberlain, the presiding justice, issued an order that all affidavits and all citations in the case be filed by next Tuesday and his decision on the motion will be given later.

All day an interested crowd made up in part of members of the Christian Science church filled the courtroom. Most of the time was occupied by counsel for the petitioners but General Streeter, counsel for the three trustees, who presented his main argument in favor of the motion Thursday, made a brief closing plea. Both D. C. Howe and Former Senator W. E. Chandler of counsel for the petitioners characterized the motion of the trustees for leave to intervene as absurd and declared that the attitude of the trustees was rather that of defendants than plaintiffs. The point was made also that the deed of trust transferring the property of Mrs. Eddy to the three trustees was executed after notice of the present suit had been received.

DID NOT KILL THE GIRL

But Henry Becker Confesses That His Companion Did.

New York, May 25.—Confronted with the body of Amelia Staffeldt, Henry Becker broke down, according to the police, and confessed that he had witnessed the assault that invited the murder of the fifteen-year-old Elmhurst girl.

The crime was done by a companion, said the prisoner, who asserted his own innocence.

Becker's admission followed a "third degree" ordeal that proved his undoing. He had been taken to the undertaking rooms where the body has lain since it was found in a field adjacent to the farm of the girl's father. There he was ordered first to look upon the body and then place his right hand upon the forehead. Becker shudderingly obeyed and the next moment collapsed. Dragged to his feet and supported on either side by a detective, the prisoner was asked: "Did you kill the girl?"

His reply, according to his captors, was: "Oh, my God. Oh, my God. I did not do it, but the man who was with me did it. He killed the girl and I ran down to the woods."

Becker could give no information as to the identity of the murderer.

TOWED INTO PORT.

Russian Steamship Korea Damaged in a Gale.

New York, May 25.—The Russian steamship Korea was towed into port by two tugs with 1,500 passengers kneeling on her decks in a prayer of thanks for deliverance from perils of the sea that had beset them for almost a month.

With her wooden deck fittings chopped up for fuel and a part of her cargo burned to keep the engines going, the Korea had fought an almost incessant storm.

For three days the ship was helpless in a gale, her shaft having broken. As the vessel rolled and pitched in the heavy troughs of the sea, her officers had difficulty in restraining the 1,500 Russian steerage passengers in their wild plan of taking to the boats.

Provisions ran low and there was a shortage of fresh water. This condition threatened to become worse and Captain Kirschfeldt turned the ship's nose toward Boston. His signals of distress were seen off Boston light and aid was given him.

CROP AND TRADE REPORTS

While Irregular, There is a Slight Improvement Visible.

New York, May 25.—Bradstreet's review of trade says crop and trade reports are irregular, owing to higher temperatures. This is most marked in the grain growing sections of the West, Southwest and Northwest, where warmer weather with needed rain has helped crop sentiment and encouraged buying. Leading Eastern markets report retail trade lagging and as a whole the country's distributive trade needs steady warm weather to enable the heavy retail business of the spring of 1906 to be equalled. Relatively, the best reports as to retail and wholesale trade come from the Pacific Northwest. In the Central West, Southwest, Northwest, East and South the volume of retail trade is behind a year ago almost without exception. As to jobbing trade, it is to be noted that reorder business has been also backward, but this week has seen a fair trade in this line East and West. A few Western and most large Eastern markets report good fall orders, but the general disposition is to await a clearer view of crop development before ordering heavily for fall. At leading Eastern centers the demand for cotton goods is a feature of activity.

It Is A Sad Fact

It is a sad fact that people in general know nothing of the food they eat. It is the duty of the physician to awaken them to the necessity of acquainting themselves with the merits of a food and the reputation of its producer. Haphazard productions are not the ones to be trusted, but where science, experience, experiment and research are factors, the result must be meritorious. CIVIC LEAGUE HELD MEETING

Owing to Rain the Attendance Was Small, but the Enthusiasm was There

PRESIDENT SANBORN DECLINES

Draft of Constitution was Referred Back to Committee for Revision

There was a small attendance at the meeting of the civic league Friday night, because of the rainy weather, but what was lost in numbers was made up in enthusiasm.

In the absence of president elect J. T. Sanborn, Mrs. A. V. Snyder, vice president of the club, called the meeting to order and asked that the meeting select a chairman. On motion H. P. Michael was selected as chairman. F. A. Farrar was selected as secretary pro tem. The committee on constitution and by-laws reported in favor of adopting the constitution presented by the Ladies Home Journal for such associations, but on reading it it was found not applicable to the needs of Brainerd and the matter was referred back to the committee.

A letter was read from Judge Sanborn, declining the position of president, which declination was accepted. Several names were suggested and the parties declined. The matter of selecting a president was left with the committee on constitution and by-laws.

Mrs. Bertha Thelviot, vice president for the Second ward reported that ward pretty well cleaned up. She also brought up the matter of riding bicycles on the sidewalk and the secretary was requested to ask Mayor Wise to enforce the ordinance in that respect.

Complaint was made as to the condition of some of the alleys and back yards. Health Officer Beise stated that he had notified the parties and that they had promised to attend to the matter at once.

Dr. Beise also suggested that some arrangements should be made for gathering garbage. At present there was no means of disposing of it.

The executive committee was asked to confer with the council in regard to selecting some other place for a dry stand.

Chairman Michael suggested the getting out of a special edition of one of the local papers to raise funds for beautifying the city. Judge Fleming suggested that the Civic League already had enough irons in the fire and the

matter was left in the hands of the executive committee.

M. T. Dunn called attention to the fact that practically only one ward was represented at the meeting and suggested that before any extensive work was begun the residents of other wards should be interested in the matter. The meeting then adjourned.

MUSIC AND DRAMA

The Parish Priest

This well known and beautifully constructed play will be presented at the opera house next Thursday evening, May 30, under the auspices of the Bohemian Club. The members of the club have been actively engaged in the sale of tickets for the past two weeks and no doubt a crowded house will crown their efforts. The play is one of the most refined and elevating modern plays ever written and has been carefully rehearsed, special attention being paid to the proper staging of the piece. All the parts are excellent characterizations, each having a distinct individuality that is well suited to the different members of the cast. Judging from the past efforts of our local thespians, a treat is in store for all those who can be present at the opera house on Thursday night.

The Dandy Dixie Minstrels Tonight

Is a real colored minstrel variety show. It is the real thing and has set a standard for Simon Pure, old time negro minstrelsy that put it in a class by itself. It has no competitors for it is absolutely alone, unequalled and unrivaled, and this expression is shared by the dramatic writers in all the cities where the Dandy Dixie Minstrels have thus far presented their inimitable performance. The New York Herald for instance, declares that it is unquestionably the best negro minstrel ever seen in this country; the New Orleans Picayune declares that it is the very best colored minstrel organization that has ever appeared in the Crescent City. The Dallas-Daily Times Herald in reviewing the first performance in that city said: "The house was packed, the applause was vociferous from the start." All the old time darky songs were sung and all the old time darky dances with new time frills were given by the light stepping sons of Africanus. Burt cork minstrelsy is all right, but these minstrels who were made black by the brush of nature, are close to first place as amusement and fun creators. "The Dandy Dixie Minstrels will appear at the opera house tonight."

NORTH DAKOTA GIVEN A BOOST

H. A. Statia, Formerly of Long Lake Writes From Stillwater About State

LAND IS HELD VERY HIGH

And Speculators are Retarding the Developing of That Section He Says

Stillwater, N. D., May 11, 1907.

EDITOR DISPATCH—I have a number of friends that read THE DISPATCH and with your kind permission will give them some facts about this southwest corner of North Dakota. It is mostly rolling prairie, quite a portion nearly level and of well known richness and fertility, yielding bountiful crops.

Two weeks ago I came up on the train, stopped at Dickinson and saw numerous emigrant cars being unloaded and in the evening went on to Belfield. I was there two days and a dozen or more cars were continually being unloaded and teams loaded with emigrant goods, most of whom were going into Bowman county. The emigrants unloading at Dickinson were mostly going by the way of New England into Hettinger county, some of them coming to this county.

My claim is nearly ten miles southwest of Stillwater and one of my neighbors going to Dickinson a few days ago met 119 loaded teams between 10 o'clock in the forenoon and 2 o'clock in the afternoon, and it is claimed they are coming at nearly that rate all the time. Stillwater boasts of two hotels, two stores, a blacksmith shop and the printing office of the Bowman County News. A neighbor was there a week ago today and counted fifty men after land. Some of my old Minnesota neighbors don't like North Dakota, but they can see that other people do believe in it.

We had a cold, backward spring, and some of the new farmers are yet breaking and putting in some small grain. Only oats and flax remain to be sown. Breaking is the order of the day. Steam breakers are much used. One two miles from me is a gang of nine plows.

As a farming country this part is fast coming in line with the older parts of state. We have considerable wind here coming by spells from Minnesota, South Dakota, Montana and the British possessions.

The new Milwaukee extension is pressing westward as fast as they can get the work done. Grading has commenced about three miles east of here and will go by the Twin Buttes and I expect to be within two miles of the road and station.

We have a coal mine less than three miles from here we get coal for the mining and hauling.

I have a neighbor adjoining me, formerly from Winona and Houston counties, who is acquainted with the Sinclairs, Dicksons, Harveys and others of Long Lake and Daggett Brook. He was also a neighbor of mine in Houston county and I was glad to meet him as a neighbor here. The Land Securities company, of St. Paul, is selling its lands at \$17 per acre, and higher, and large tracts are owned by speculators, consequently portions of these valuable lands will remain unsettled for years. Poor people cannot pay the price and that is one drawback to what would soon be a thickly settled state, and a real drawback to schools and churches.

Emigrants coming here and locating from 40 to 40 miles from the railroad need their pockets well lined with big fees for land agents and others with whom they deal.

If anyone wants further information regarding this country I would be pleased to hear from them. My address is Stillwater, N. D.

CONCLUDES ITS WORK.

Presbyterian General Assembly Will Meet Next Year in Kansas City.

Columbus, O., May 25.—The 119th general assembly of the Presbyterian church has concluded its work. There was no renewal, as had been expected, of the temperance controversy. On the contrary, the report of the permanent committee on temperance was accepted without debate.

Rev. Dr. E. R. Worrell, one of the field secretaries of the committee, spoke of the work that the committee had done and declared that there was no desire to antagonize the anti-saloon league, that both organizations had their own spheres of usefulness, and that they would endeavor to co-operate. Last year the permanent temperance committee received and expended over \$16,000 in its work and the assembly recommended that it be given \$25,000 during the coming year.

On the general subject of temperance work the assembly adopted this resolution:

"The assembly expresses its hearty approval of all temperance organizations of whatever name and of their labors in opposition to the giant evil of intemperance. Special commendation should be given to the National Temperance society for its long and unbroken career of usefulness and for its close connection with Presbyterianism from the beginning."

The assembly decided to meet next year in Kansas City, Mo.

A BIG CIRCUS

The Enlarged Campbell Brothers Consolidated Shows are Beyond Comparison

The great Campbell Bros. consolidated shows will exhibit in Brainerd on Friday, June 7, has been enlarged on such a scale of liberality as to make it next to impossible to depict its real magnitude. Besides enormous additions to the circus proper, the parade has been increased and is now one of the finest ever seen with this meritorious organization. In the arena display are brought together an assembly of the most famous acrobats, gymnasts, aerial performers, dancers, funmakers and sensational specialists in the world. Foremost among the celebrities are "The Flying Le Vans," the "Mizuno troupe of Japs," Bishop Bros., double somersault leapers; Nellie Ryland, champion bareback rider of the world; Cossack Rough Riders, in daring feats of horsemanship; the great hippodrome races and other highly sensational acts too numerous to mention.

Among the trained animal features are a herd of performing elephants, educated horses and ponies, high jumping dogs and clown mules. The menagerie annex contains the most complete, exclusive and valuable collection of wild animals from all parts of the world.

The street parade will leave the show grounds at 10 o'clock. Performances at 2 and 8 p. m.

It's too bad to see people who go from day to day suffering from physical weakness when Hollister's Rocky Mountain Tea would make them well. The greatest tonic known. 35 cents, tea or tablets. H. P. Dunn & Co.

GEO. E. GARDNER WAS FOUND GUILTY

Jury in Municipal Court Brings in That Verdict Against Saloon Keeper

WAS GIVEN \$50 OR 40 DAYS

Defendant Filed Appeal Bond and Will Probably Appeal to the Circuit Court

The jury in the case of the State of Minnesota vs. Geo. E. Gardner, charged with permitting minors to frequent his saloon, was out only ten minutes and brought in a verdict of guilty.

The case, which was called for Friday morning at 10 o'clock, was continued until 1 o'clock when a jury was empaneled as stated in Friday's DISPATCH. The first witness sworn was Bert Mahlum, who swore that he was 17 years of age and that on the 15th day of May he and Arnold Kalland were in the saloon and that the bar keeper served them without objection or inquiry as to their age. Witness on rebuttal identified the bartender as John Scofield.

Arnold Kalland swore to substantially the same thing as Mahlum.

The defendant called John Scofield, the bar tender, who swore that the boys were not in the saloon that day while he was there, that he did not know them and had never heard of them or heard the name of Mahlum. Had worked around town ten years. David Flansburg, the porter, who tended bar during absence of the bar tender swore that he did not see the boys there that day and did not sell them anything.

Defendant was sworn. He went to the saloon at 5 o'clock. Did not see the boys after he went there. Had given orders that minors be not allowed in the saloon and did not see any there.

After the jury brought in a verdict, and before sentence was passed defendant asks court to fix the amount of an appeal bond which was set at \$100. Sentence of \$50 fine or 40 days in jail was then imposed by Judge Albright.

Rengo Cure For Fat People

Costs Nothing to Try.

Rengo, one of the most famous products of the land is now declared by scientists to be Nature's own marvelous cure for obesity or excess fat.

This illustration plainly shows what Rengo has done.

Rengo does more than reduce the weight and get rid of the fat. It does all this without weakening the patient or otherwise working him hard, and it positively builds up the health, giving increased strength and vitality. It brings almost immediate relief from the dangers of fatty degeneration of the heart and other fatal conditions which nearly always accompany excess fat.

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid by the Rengo Co., 3033 Rengo Bldg., Detroit, Mich. If you prefer, they will gladly send you a trial package free by mail. For sale and recommended in Br'erly by H. P. Dunn & Co., Druggists.

SIX JURORS SWORN.

Believed That the Schmitz Jury Will Be Completed Next Week.

San Francisco, May 25.—Six of the twelve jurors who will try Mayor Eugene Schmitz on the charge of extorting money from keepers of French restaurants have been finally selected and sworn and the prospect is that the jury will be completed by the middle of next week.

The feature of the proceedings was the examination of Talesman Charles W. Welch, senior member of the Weber company, furniture dealers in San Francisco and Los Angeles. The inquiry into Welch's fitness to try the mayor resolved itself into a heated battle between Special Prosecutor Johnson and Attorney Barrett of the defense. Welch confessed that he had sought and obtained "the friendship" of Abraham Ruef, the indicted political boss, for the Weber company in its successful biddings on municipal supplies contracts and that he had confidentially paid Ruef money several times "to help along the majority campaign of Schmitz."

Welch was dismissed on repeated challenge for cause by the state.

An incident of Welch's examination was the claim by him that he had contributed "continuously and indiscriminately, as all business men are compelled to do, to campaign funds," and that he not only had given money to the campaign of District Attorney Langdon (who is backing the bribery graft investigation and prosecution) but had advised him to run for the office.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed free to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar process of rendering them both efficient and safe for tonic, alterative and rebuilding agents. The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the *Golden Medical Discovery* on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it in a class of its own. It is a medicine of the highest quality, and its ingredients are all of the most reliable. The *Golden Medical Discovery* is a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowels and all catarrhal affections of the digestive tract. It may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

Walker Landed in China.

LIVER

Failure of the liver to filter bile from the blood, where it poisons, and pass it into the intestines, where it aids digestion and keeps the bowels regular, gives rise to numerous headaches, indigestion and constipation and also leads to diseases of the kidneys, because the blood is impure.
